

Acknowledgements

This booklet was published in response to recommendations made at the *Regional Experience Sharing Workshop on Exercise Management for Avian and Human Influenza in ASEAN+3 Countries* which took place in Bangkok, Thailand, from 27 to 28 November 2007 organized by the Asian Disaster Preparedness Center (ADPC) in collaboration with the United States Agency for International Development (USAID), the Kenan Institute Asia (K.I.Asia) and the Ministry of Public Health, Royal Thai Government. We thank the participants of the workshop for raising the importance of documenting the different types of simulation exercises that have taken place so far, to be shared within and beyond the Asia-Pacific region. We, most of all, wish to extend our special thanks to the writing team members listed in the annex of this booklet for the dedication of their time, expertise and experience without which this booklet would not have been developed.
